

Judy Goplin
Program Assistant
Discovery Farms
University of Wisconsin – Extension

Judy Goplin is the Program Assistant for the Discovery Farms program. Judy began her career with UW-Extension in the Trempealeau County office in March of 1992 as the secretary for the 4-H and family living programs. In March 2001, she started working for Discovery Farms and is widely recognized as the contact person and organizer of the Pigeon Falls office.

Judy has lived in the Whitehall/Pigeon Falls area of west central Wisconsin all of her life. She and her husband Nolan have been married more than 38 years, and they have two married sons and six grandchildren. Her family owns and operates a 700-cow dairy farm. Nolan and their sons, Jamie and Shane, also do custom hay and corn harvesting. Judy enjoys her work at Discovery Farms because it is a program that deals with real world issues by collecting data from working farms. She believes that it is important to find out what is really happening on farms. This is important to the entire Goplin family.
